

Ten Ways We Help Our Clients Succeed

For 20 years, we've been obsessed with our customers success and building partnerships.

To this day, the passion remains to create great looking, high-performance websites that become catalysts for their brands. Through our clients continued long-term satisfaction and improved online revenue, we make their success our success.

Product Data Champions

We have access to product data for over a thousand brands so you never have to worry about updates or complicated patches. Enjoy the speed and power of customizable data created just for your industry, business, and customers.

Ecommerce Geniuses

Our team has 100,000+ hours of on-site experience in the day-to-day operations of successful eCommerce companies just like yours. We strive to provide you with a lifelong, successful eCommerce partnership, not just a website.

Game-Changing Designs

Our award-winning creative team will build a visually stunning, high-performance store that demonstrates the value and commitment of your brand. Customer will feel compelled to spend more time and money at your site.

Reliable and Secure

We're constantly focused on delivering a reliable and secure web shopping experience that's always up and ready. With a 99.9% up-time and robust web security, we take complex shopping experiences and make them simple and safe.

Profitability and Results

We're experts when it comes to creating eCommerce websites that produce greater traffic, higher conversion rates, and satisfied customers. In short, we deliver on the profitability and results that you need and expect from investing in your website.

Streamlined for Success

Our thorough and streamlined success process is geared around your unique business and its goals. After data collection and analysis, we outline a plan to make sure you get what you need on time, and on budget.

Tailored for Your Business

Every business is different. We invest time learning about your strengths and weaknesses while sharing our knowledge about best practices. The result is a data supported shopping experience tailored to your ideal market.

All-In-One Platform

From our native search technology delivering an optimal shopping experience to our complete eCommerce suite with integrated content management and community tools, our platform will empower you to focus on growing your business.

Your Feedback Matters

We regularly survey our customers to ensure we're exceeding their expectations and providing value that matters. You can rest assured that your feedback is important and resonates with our staff and management.

We've Got Your Back

Like a wing-man or a body guard, we're there when you need us. At any time, you can speak to a dedicated eCommerce professional for guidance and support. No longer will you have to wait and wonder when your questions will be answered.

Trusted Partners In Online Commerce

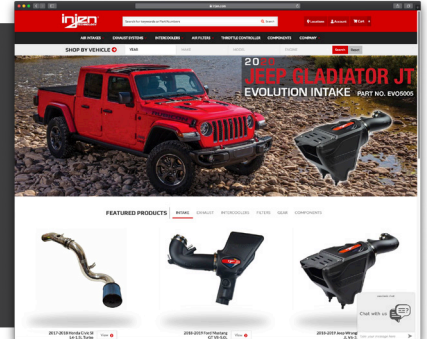

Hundreds of businesses have turned to WebShop Manager as their trusted partner in online commerce. From small businesses to large manufacturers, WebShop Manager is the smart choice for those looking to build a great online business.

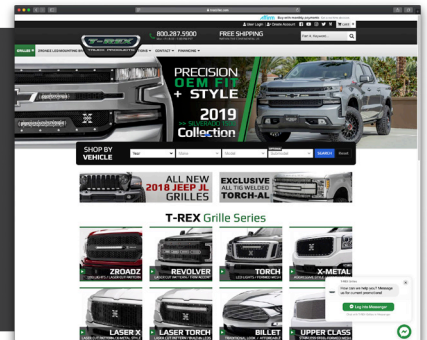

Since the inception of Injen Technology, I've searched for a website builder that could build us a site that would serve all of our needs! after 20 years, our website is finally up and working the way it was meant to work. Sales are up and our customers love the wealth of information our offers. I can't thank everyone enough at WebShop Manager for all the hard work you've put into building our website! Keep up the good work!

Ron Delgado, Injen | www.injen.com

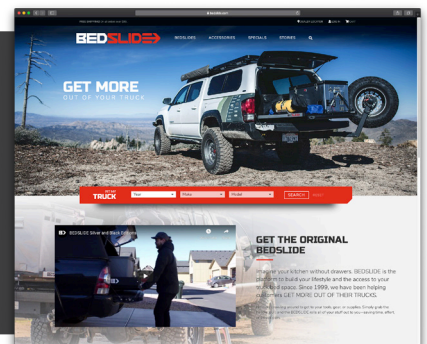

We are very satisfied with the WSM team and the service they are providing for us for years. We see how they are continuously improving their team and customer service, as well as their system to keep up with the new technical challenges in e-commerce.

Ester Dory, T-Rex Grilles | www.trexillet.com

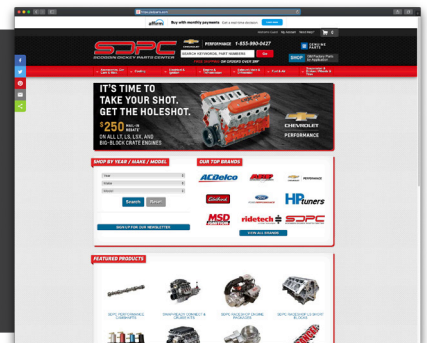

Over all VERY Happy with WSM and would recommend to others. They know how to design and build a site that caters to the aftermarket sellers. The site does a great job making is easy to buy while being informative to the researcher consumer. Very easy to use the back end and update directly.

Jake P., VP Sales & Marketing | www.bedslide.com

Web Shop Manager has been a team player with our company from Day 1, from the smallest details to the 30,000-foot view their input and expertise has been without measure. Our online sales have grown significantly, not only with the WSM Platform but also with their professional suggestions and advice.

Nicky Fowler, VP Fixed Operations | www.sdparts.com
